SACRAMENTO UPDATE

The Legislature is now on Spring Recess and will return to Sacramento on Monday, March 24, 2008.

Recent State Budget Hearings

On Thursday, March 6, 2008, the full Senate Budget Committee held an informational hearing on the Governor's CalWORKs Budget proposals for FY 2008-09 and the Legislative Analyst's Office's (LAO) recommendations. A representative of the California Department of Social Services advised the Committee that California is falling short of meeting the 50 percent CalWORKs work participation rate as required by the Federal Deficit Reduction Act of 2005. Failure to meet the work participation rate would result in a Federal fiscal penalty which counties would share equally with the State. The representative stressed that the Administration's proposals to impose a graduated full-family sanction when the adult fails to meet the work participation requirements, to eliminate CalWORKs cash benefits for families who reach the 60-month time-limit, and for the child-only CalWORKs cases are all intended to assist the State in meeting the higher work participation rate requirement and avoid a Federal fiscal penalty.

A representative from the LAO presented its alternative budget proposal which recommends that the Legislature enact a four-month, pre-assistance employment readiness program. After the four-month pre-assistance period, recipients who are not

exempt must be employed or sign a welfare-to-work plan to move to the CalWORKs program. As allowed under Federal law, families in the pre-assistance program would not be counted toward the work participation rate. The LAO estimates this proposal would increase the State work participation rate by 1.9 percent.

Frank Mecca, Executive Director of the County Welfare Directors Association (CWDA) and Michael Herald with the Western Center on Law and Poverty voiced opposition to the Governor's CalWORKs Budget proposals. Mr. Mecca requested additional time to further analyze the LAO proposal.

The Committee took no action on the budget proposals. These issues will next be heard by Senate Budget Subcommittee #3 on Health and Human Services.

Joint Informational Hearing on the 2008 Presidential Primary Election

A Joint Informational Hearing on the "Problems Faced by Voters at the 2008 Presidential Primary Election" was held on Friday, March 7, 2008 in Los Angeles by the Senate Elections, Reapportionment and Constitutional Amendments Committee, the Senate Select Committee on Integrity of Elections, and the Assembly Committee on Elections and Redistricting. The joint hearing was chaired by Senator Calderon, joined by Senator Oropeza, Senator Ridley-Thomas, Senator Flores and Assembly Member Price. Senator Calderon stated in his opening remarks that the County would not be reimbursed for the cost of conducting the extra canvassing performed to correct the mistakes made at the first count.

Hearing participants included Secretary of State Debra Bowen, Acting Los Angeles County Registrar-Recorder/County Clerk Dean Logan, former Los Angeles County Registrar-Recorder/County Clerk Conny McCormack, President of the California Association of Clerks and Election Officials Steve Weir, and representatives of California Common Cause, League of Women Voters, California Voter Foundation and African American Voter Registration, Education and Participation Project.

Secretary of State Bowen provided testimony on the duties and responsibilities of her office and those of the counties. In addition, she spoke of the challenges presented by primary elections due to the size of the State electorate, the need to train approximately 100,000 volunteer pollworkers throughout the State, the various ballot designs used by counties and the lack of effective communication technology between her office and local election officials, particularly during the day of the election. Secretary Bowen expressed her gratitude to County elected officials and officers for their cooperation in communicating with her office during, before and after the elections.

Following Secretary Bowen's presentation, Conny McCormack testified on the historical changes that have occurred in ballot design and voting procedures for decline-to-state

voters. Senator Calderon stated that in 2004 at least 44 percent of crossover votes were not counted and there was a similar result in 2006 when 42 percent of the votes were not counted due to the double-bubble design. Senator Calderon asked why this fact did not trigger an analysis of the problem by the Registrar-Recorder. Ms. McCormack indicated that in hindsight, this analysis should have been done. Senator Oropeza asked why the problems were not corrected in a timely manner. Ms. McCormack noted that the department was extremely busy with other priorities, in part dealing with the possible decertification of voting machines by the Secretary of State.

Dean Logan testified that the Board of Supervisors and his office have decided that the double-bubble format will be eliminated immediately. In addition to the problems encountered by crossover voters, other problems involving ballot supplies, access to polling locations, language assistance, integrity of voter registration files and the capabilities and security of voting systems are also being addressed. In response to questions related to the ability of the Department to handle the workload, Mr. Logan responded that he would be in constant communication with the Board of Supervisors and would ask for additional resources when needed. Steve Weir stated that the Los Angeles County Registrar-Recorder's office is held in high regard in California and that many counties in the State had problems on Election Day.

Several voting rights advocates testified about voting systems problems, accessibility difficulties at polling places, language barriers, lack of trained pollworkers, lack of decline-to-state information, and other recurring themes.

Pursuit of County Position on Legislation

AB 2262 (Torrico), as introduced on February 21, 2008, would: 1) raise the age at which a minor child can be surrendered from 72 hours old or younger, to 7 days; 2) allow a local fire agency to designate safe surrender sites with the approval of the local governing body of the agency; 3) specify that persons at a safe surrender site have no liability prior to taking physical custody of a child; and, 4) appropriate \$5 million to the California Department of Social Services to conduct a Statewide awareness campaign to publicize the safe surrender program and establish a toll-free telephone number to provide information regarding safe surrender sites.

AB 2262 is nearly identical to County-opposed AB 81 (Torrico). As introduced on December 4, 2006, AB 81 would have extended the safe-surrender period from 72 hours to 30 days. On September 4, 2007, the bill was amended to extend the safe-surrender period to seven days. AB 81 was vetoed by the Governor on October 13, 2007. In his veto message, the Governor stated that, "The current 72-hour period contained in law allows for a no-questions-asked safe surrender of a newborn and is supported by research and statistics which indicate that most neonaticide occurs within

the first day. Experts have raised concerns that instead of improving child safety, increasing the time that a baby may be surrendered from 72 hours will put newborns in greater risk by keeping them in an unsafe environment with proper care and supervision."

Consistent with the County's opposition to AB 81, and existing policy to oppose proposals that would increase the time allowed to safely surrender an infant from 72 hours of age to 30 days and to continue to allow local boards of supervisors to designate safe surrender sites, **our Sacramento advocates will oppose AB 2262.**

There is no registered support or opposition on file for AB 2262. However, AB 81 was supported by the California Medical Association, California Hospital Association, California Nurse Midwives Association, California Association for Nurse Practitioners, California Parent Teachers Association, California Chapter of the National Association of Social Workers, League of California Cities, American Academy of Pediatrics, Commission on the Status of Women, California State Firefighters Association, and the American Federation of State, County, and Municipal Employees. AB 81 was opposed by the Los Angeles County Sheriff, Los Angeles County District Attorney, First 5 LA, and the Los Angeles Community Child Abuse Councils Coordination Project. The County Welfare Directors Association and the California State Association of Counties opposed AB 81, unless amended, to allow parents to safely surrender infants up to seven days old.

AB 2262 was referred to the Assembly Judiciary and Public Safety Committees. Hearing dates have not been scheduled.

AB 2640 (Huffman), as introduced on February 22, 2008, would make all green waste deposited in a landfill, including that used as Alternative Daily Cover (ADC), subject to the State's waste disposal fee of \$1.40 per ton, effective January 1, 2009. Funds would be directed towards compostable organic management projects. The bill would require the California Integrated Waste Management Board (CIWMB) to adopt or revise regulations that establish conditions for the use of ADC by July 1, 2010, and would eliminate diversion credit for the use of green waste for beneficial reuse in the construction and operation of a solid waste landfill, or as ADC, beginning January 1, 2015.

The Department of Public Works (DPW) indicates that one of the goals identified in the Countywide Siting Element is to help conserve landfill capacity by using appropriate materials (such as green waste) as ADC, and states that the use of green waste ADC has numerous environmental and economic benefits, including: 1) preventing the mining and wasting of clean soil that would have otherwise been used as daily cover; 2) conserving landfill capacity by avoiding an additional cover material layer and the ability of green waste to compact and decompose over time; 3) creating markets for the

beneficial use of green waste; 4) maintaining a local outlet for the beneficial use of green waste; and 5) strengthening the curbside collection infrastructure for green waste.

Due to the ability to obtain diversion credit for utilizing green waste ADC, and because of the benefits listed above, DPW indicates that jurisdictions and private industry invested in costly equipment and infrastructure to implement green waste collection and recycling programs which provide for the separate collection of green waste to be used as ADC. Seventy-seven jurisdictions in Los Angeles County now rely on this infrastructure to manage green waste material to meet the State's 50 percent waste reduction mandate, since green waste accounts for approximately 15 percent of the waste stream.

DPW indicates that AB 2640 would eliminate the environmental benefits green waste ADC provides, jeopardize local jurisdictions' achievement of the State's 50 percent waste reduction mandate (subjecting agencies of fines of up to \$10,000 per day), and increase costs for local jurisdictions and residents for the collection and processing of green waste materials. In addition, DPW indicates that shifting green waste to another outlet requires a tremendous processing capacity that presently does not exist and would be extremely difficult to develop. As such, DPW and this office oppose AB 2640.

Opposition to AB 2640 is consistent with existing County policy to "oppose legislation to eliminate diversion credits for the use of green waste as a landfill cover." In addition, the County opposed SB 411 (Alarcon) of 2006 which would have eliminated the use of diversion credit for green waste as an alternative daily cover. **Therefore, our Sacramento advocates will oppose AB 2640.**

AB 2640 is supported by Californians Against Waste and is opposed by the Los Angeles County Integrated Waste Management Task Force and the County Sanitation Districts of Los Angeles County. This measure is currently at the Assembly Desk awaiting referral to a policy committee.

Status of County Advocacy Legislation

County-supported AB 822 (Levine), which would have required the State Department of Forestry and Fire Protection in consultation with the California Urban Forestry Council, to award \$90 million from Proposition 84 for grants to public and non-profit organizations for urban greening, now relates to solid waste for multi-family dwellings. **Therefore, our Sacramento advocates will remove our support and take no position on the amended version of AB 822.**

County-supported AB 832 (Bass), which would have specified the purposes for expending \$90 million in Proposition 84 funds for an urban greening program, now relates to a financial assistance program that would be administered by the California

relates to a financial assistance program that would be administered by the California Film Commission for the production of qualified motion pictures and commercials. **Therefore, our Sacramento advocates will remove our support and take no position on the amended version of AB 832.**

County-supported SB 292 (Wiggins), which would have required the Secretaries for Environmental Protection and Resources to develop a planning grant program and create a program of grants, rebates, and loans for allocating \$90 million in Proposition 84 funds for an urban greening program, now relates to the Veterans' Home of California. **Therefore, our Sacramento advocates will remove our support and take no position on the amended version of SB 292.**

Legislation of County Interest

SB 867 (Cedillo) which would authorize licensed family child care providers and license-exempt child care providers to select an organization to negotiate the terms of wages and benefits with the California Department of Social Services passed the Senate Floor on March 10, 2008 by a vote of 23 to 13 and now proceeds to the Governor.

Appropriations for Proposition 1C were included in the Housing Trailer Bill (SB 86).	Chapter 692 of 2007
		Support and Amend (State Update: 7/9/07)	PREVIOUSLY: Was amended to expand the definition of a qualifying infill project to include census-designated places with a population density of at least 2,500 residents per square mile. In addition, a dollar for dollar grant match provision was eliminated in favor of a requirement that the relevant legislative body make a finding that the funds are necessary for the economic viability and feasibility of the project and the improvements are of general community benefit.	
		Oppose Unless Amended (State Update: 6/28/07)	INITIALLY: Would have provided for the allocation of \$850 million Affordable Housing Initiative Fund contained in the Housing and Emergency Shelter Trust Fund Act of 2006 (Proposition 1C). Thus, the bill would have precluded an unincorporated community from qualifying for the competitive grant program.
